VACANCIES
In terms of Vision 2030, it is said that by 2030, ‘Namibia should join the ranks of high-income countries and afford all its citizens a quality of life that is comparable to that of the developed world.’ The importance of Vision 2030 is that it provides the macro argument for the construction of the Vision Schools as a strategy to expand access to high quality and excellent secondary education to marginalized children with high academic potential. Vision 2030 also provides a strong motivation for public-private partnerships to support schools.

The concept has been developed in accordance with guidelines stated in the Education and Training Sector Improvement Programme (ETSIP) - Pro-poor expansion of secondary education.

The Ministry of Education has established the first ever Vision School (Rukonga) in the most remote part of the Kavango East Region at Divundu, targeting among the most disadvantaged learners across the country. This is a complete secondary school offering grades 8 to 12 with the aim to provide and sustain intensive educational support to potential learners from a disadvantaged background.

The Rukonga Vision School, which opened in January 2013 and officially inaugurated on 22 July 2013 by His Excellency Dr Hifikepunye Pohamba, the President of the Republic of Namibia, has a national status capable of attracting a diverse and largely disadvantaged learner population from all 14 regions. In order to achieve a knowledge based society, it will be necessary to invest in learners with potential, from a disadvantage background, to succeed in and beyond secondary education.

Suitably qualified and highly motivated candidates are invited to apply for the following positions at the duty station: Divundu (Kavango East Region - Rukonga)
